JOB FAMILY AND FUNCTION

Job Family: Information Technology

Job Function: Cyber Security

JOB SUMMARY

Under general direction and supervision, utilizes information gathering, analytics aptitude, and problem solving skills to minimize and/or neutralize information and cybersecurity risks within the University network. Monitors the environment and security tools for signs of trouble. Serves as the first point of contact when a high-risk alert is issued or a suspected attack begins to affect business operations. (Employee must work in central IT unit. Exceptions require CIO prior approval.)

RESPONSIBILITIES

- Assists in enforcing and auditing information security policies and procedures such as access, breach escalation, use of firewalls, and encryption routines.
- Assists in updating, maintaining, and documenting security controls. Provides direction and support to clients and internal IT groups for information security-related issues.
- Performs administration duties of varied server technologies, enterprise systems and peripheral devices, network and security devices, and all desktop computer systems and peripherals within the last five years on market.
- Assists in performing high-level analysis of complex and disparate computing systems, networks, and data architectures to identify, rectify, and prevent technical and information security vulnerabilities.
- Performs work on critical automated processes, computer systems, networks, databases, information systems, telecommunication systems, and computer policies, procedures, and practices.
- Demonstrates high-level technical skills in the areas of information security, networking and computer systems, and excellent capacity for grasping relevant details and complex systems analysis.
- Performs other related duties as assigned by the supervisor.

SUPERVISORY RESPONSIBILITIES

Supervisory Responsibility

May be responsible for training, assisting or assigning tasks to others. May provide input to performance reviews of other employees.

MINIMUM QUALIFICATIONS

To be eligible, an individual must meet all minimum requirements which are representative of the knowledge, skills, and abilities typically expected to be successful in the role. For education and experience, minimum requirements are listed on the top row below. If substitutions are available, they will be listed on subsequent rows and may only to be utilized when the candidate does not meet the minimum requirements.

MINIMUM EDUCATION & EXPERIENCE						
Education Level	Focus of Education		Years of Experience	Focus of Experience		
Bachelor's Degree	No specific discipline. Degree in IT or related field preferred.	And	3 years of	Relevant IT experience in administering security measures to monitor and protect sensitive data and systems from infiltration and cyber attacks.	Or	
Associate's Degree	No specific discipline. Degree in IT or related field preferred.	And	7 years of	Relevant IT experience in administering security measures to monitor and protect sensitive data and systems from infiltration and cyber attacks.	Or	
High School	/GED General education	And	11 years of	Relevant IT experience in administering security measures to monitor and protect sensitive data and systems from infiltration and cyber attacks.	Or	

Substitutions Allowed for Yes Education

Substitution allowed for Education: When a candidate has the required experience, but lacks the required education, they may normally apply additional relevant experience toward the education requirement, at a rate of two (2) years relevant experience per year of required education.

MINIMUM KNOWLEDGE, SKILLS, & ABILITIES Knowledge of intermediate troubleshooting, client relations, and cybersecurity principles. And Ability to implement a plan to address and mitigate security vulnerabilities. And Ability to recognize, analyze, and solve a variety of problems. And Ability to effectively communicate technical concepts to a non-technical audience. And Strong technical aptitude and computer skills.

MINIMUM LICENSES & CERTIFICATIONS						
Licenses/Certifications	Licenses/Certification Details	Time Frame	Required/ Desired			
None Required.				And		
Other	Industry recognized cybersecurity certification	Upon Hire	Desired			

PHYSICAL DEMANDS & WORKING CONDITIONS
